

## INFORMATION ABOUT SEA TRIALS „S.721 NYK ASUKA III“

This flyer contains current topics about conveyance, laytime and sea trials of the NYK ASUKA III

### SEA TRIAL NYK ASUKA III: INFORMATION

The conveyance and sea trials of the NYK ASUKA III (S. 721) are starting. Here is an overview of the instructions agreed with the works council.

#### Registration for cabin/commuter

Registration for boarding can only be made via the responsible persons at MEYER WERFT. Boarding passes cannot be issued without prior registration. All persons who receive a cabin on board must have seen the safety film in advance. This is indicated by a sticker on the boarding pass. Access on board is not possible without this sticker. This is no longer required after the sea trial.

#### Accommodation onboard

Bed linen and towels will be provided in the cabins. The shipyard will provide the housekeeping service and will clean the cabins and wet rooms every three days at the latest. The cabins are adequately protected with covers. It is not allowed to remove this protection. Washing of private clothes and work clothes will be possible on board in a crew laundrette (information will be posted on board). Please note that no detergent will be provided. Therefore, please bring your own detergent. There is also no longer a laundry container in the harbor.

So that we do not block any cabins unnecessarily, we reserve the right to vacate and reassign cabins of persons who have not been on board for more than 36 hours without informing our hotel team. Please remember to check out when you finished completely. This is possible in the hotel container at the pier or at the gangway.

#### Shuttle bus service

Bus shuttles will only be possible after binding registration in advance. The company or cost center will be invoiced as soon as registration for the bus has been received.

Registration for the bus must be made 48 hours in advance. You can do the registration for the bus at the hotel container.

#### Berth

Wearing a safety vest and helmet is mandatory throughout the Eemshaven and Emden area. Please remember helmets and vests, these are not in stock and will be issued in the ports. Parking is available at the Seamen's Mission in Eemshaven and Emden. Parking spaces are limited here.

### Catering

Catering will take place on board in the Lido Deck 11 "Ems Garden and Grill". Soft drinks will be available during the meal, limited to 2 cans per person and per meal.

Water will be available twice a day in a designated store (with & without gas). When you receive your boarding pass for the first time, you will receive 6 tokens per person (with cabin) and 2 tokens per person (commuter), which can be exchanged for bottles of water. After that, only the empty bottle for full bottle principle applies.

Important: Queues are always dependent on the behavior of the employees. The concept will only work if everyone adheres to the allocated meal times.

There will be a separate coffee corner for all employees on board. The exact location on board will be announced later and is always subject to change. Please pay attention to the announcements on board or ask our hotel team. This service can only be maintained if it is handled with care.

### Internet and Television

We provide a wifi that can be used by the entire Meyer Werft team and partner. It will not be possible to stream movies, but it will be possible to stay in touch via social networks. Telephony will also be possible. The prerequisite for this is, of course, that we as a team complete the systems in a timely manner. There will be no televisions in the cabins on this ship. There is no television installed in the cabin.

### What is not allowed?

Drugs, alcohol and weapons are not permitted on board. Persons found to be under the influence of alcohol will be subject to a breath test. The permitted limit for access to the ship or port area is 0.5 per mille.

Technical devices such as kettles, games consoles, irons, etc. are not permitted. Shavers, hair straighteners, curling irons and hair dryers are permitted, but should be packed away again after use.

Smoking in the cabins and outside the designated areas is not permitted. Walking around with open beverage cups on board is also prohibited.

If you feel uncomfortable in certain situations, if harassment occurs and you don't know who to turn to, we have contact persons you can confide in!
